AI Meeting Assistant

4K AI-Powered Conference Solution for Every Workspace

Kandao Meeting Pro 2 delivers 4K HDR clarity, 360° visibility, and AI-powered auto-framing, tracking, and noise reduction. SmartNote provides real-time subtitles and automatic summaries for effortless collaboration.

360° Coverage with 4K HDR Clarity

Fully cover the meeting room in 360°. 4K HDR video with noise reduction corrects overexposed or dim areas, keeping faces vivid under any lighting. Video conferencing has never felt so face-to-face.

Auto-Framing and Smart Tracking

Kandao Meeting Pro 2 features a powerful AI algorithm that accurately auto-frames participants and tracks the active speaker, keeping the speaker highlighted and centered for seamless, engaging meetings.

AI Smart Notes and Real-Time Captions

Kandao Meeting Pro 2 features a next-generation AI chip and cloud voice models that convert speech into live captions and instantly produce full meeting notes, turning spoken words into structured text.

Flexible View Management

For Any Meeting Scenario

Kandao Meeting Pro 2 goes beyond 4 default views (speaker, Gallery, Panorama, Forum), automatically adjusting the number of on-screen windows based on participant count. supporting up to 8 participants on screen.

Outstanding Audio Performance

With AI Noise Reduction

Features an 8-microphone array and built-in speaker, offering an 18 feet pickup radius and high-quality audio. AI noise reduction removes distractions while preserving voice clarity.
